

SAFETY BULLETIN

SAFE WAY TO SCHOOL

The first school day is a milestone in the life of your child.

Be prepared to show your child a safe way to and from the school or the bus stop.

- ** Look for a safe way *before* the first school day !
- ** The shortest way is not always the safest way !
- ** Use crosswalks, traffic lights or crossings controlled by patrols.
- ** Explain wrong traffic behavior of other road users and show the right way.
- ** Tell your child to leave early for school or bus.
- ** Advise your child of hazards while walking, running, playing etc. at or close to bus stops and on walkways.
- ** Point out to your child not to cross the street till the bus has left the bus stop.
- ** Let your child get out of your POV only at the curb side of the street.
- ** Ensure that your child wears brightly colored outer garments.
- ** Be a good example to your child.

We wish your child a safe and accident free school year !
